

Inspection Air-Assisted Sprayers for Bush and Tree Crops

What is inspected:

All air-assisted sprayers for bush and tree crops are inspected on base of regulations of the Product Board for Horticulture.

The inspections are performed by nation wide network of SKL certified inspection centres

Results of the inspections 2006

Approved Approved after repairs

Most occurring failures

- 1 Worn out or blocked nozzles
- 2 Leakages / dripping nozzles
- 3 Inaccurate pressure gauge
- 4 Not functioning or faulty controls
- 5 Spray Liquid Tank: Cover faulty, strainer missing, level indicator not readable
